P-ADL (PETROCHEM – ASPHALTEN DISPERSANT LIQUID)

TECHNICAL DATA

P-ADL is a product with enhanced ability to control organic deposits formed by asphaltene and paraffin and disperse organic solids in production fluids.

RECOMMENDED APPLICATION

P-ADL can be applied via continuous and batch treatment. It could be used in well clean out operations, for pipelines and tanks cleaning. A treatment program should be designed for each individual system.

FEATURES AND BENEFITS

- Helps to dissolve and remove existing deposits
- Works mainly in oil fluids
- Increases oil production

SHIPPING, STORAGE AND HANDLING

Refer to SDS for shipping, handling, and storage information. Keep container tightly closed in a dry and well ventilated place. P-ADL is available in 55 gallon drums, and can also be provided in totes or bulk.

MATERIAL COMPATIBILITY

Avoid strong acid, bases or oxidizing agents. Please check compatibility with your other products and specific materials.
